## DETAILED ACTION

Claims 1-36 are pending for examination.

### *Election/Restriction*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 and 13-19, drawn to object oriented data structure, classified in class 707, subclass 103R.
- II. Claims 8-12 and 20-36, drawn to manipulating data structure, classified in class 707, subclass 101.

The inventions I and II are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I (object oriented data structure) has separate utility such as storing XML according to an object. Invention II (manipulating data structure) has separate utility such as manipulating a container for XML schema namespace via script language development.

Because these inventions are distinct and search groups I and II are not required to be simultaneous and will create serious workload for the examiner, restriction for examination purposes as indicated is proper.

Examiner has conducted a telephone interview with Applicant's attorney – Mr. Nathaniel Ari Long on May 10, 2006. Upon the interview the attorney is not able to make an election of the groups for the instant claims restriction, as such, the restriction of the instant invention is listed above.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is reminded that the reply to this restriction election to be completed must include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement is traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Y. Chen whose telephone number is 571-272-4016. The examiner can normally be reached on Monday - Friday from 7:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Gaffin can be reached on 571-272-4146. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
